

Universidad Nacional Autónoma de México

Faculty of Engineering
Electrical Engineering Division

Course: Compilers **Group:** 5
Semester: 2026-2

Report: **Parser**

Professor:
M.C. René Adrián Dávila Pérez

Student IDs:

320060829
320317264
320206968
320025561
320266083

Delivery Date:
Sunday, May 28th, 2026

Contents

1	Introduction	2
2	Theoretical Framework	2
3	Developmenmt	2
3.1	Overview of the implementation	2
3.2	Grammatic	2
3.3	Input/Output and execution	2
3.4	Relation with the propose CFG	2
3.5	Tests realized	2
4	Results	2
4.1	Input from keyboard	2
4.2	Input from file	2
4.3	Lexical Analysis in Terminal	2
4.4	Grouping of Tokens by Type	2
4.5	Code Visualization with Token Highlighting	2
4.6	Exporting Results	2
5	Conclusions	2
	References	2

1 Introduction

Objectives

2 Theoretical Framework

3 Developmenmt

3.1 Overview of the implementation

3.2 Grammatic

3.3 Input/Output and execution

3.4 Relation with the propose CFG

3.5 Tests realized

4 Results

4.1 Input from keyboard

4.2 Input from file

4.3 Lexical Analysis in Terminal

4.4 Grouping of Tokens by Type

4.5 Code Visualization with Token Highlighting

4.6 Exporting Results

5 Conclusions
